**INVITATION TO PARTICIPATE in the 1st Regional**

**Robotic Rehabilitation Technology Congress RRT. med**

**We are pleased to announce the first Regional Congress**

**ROBOT REHABILITATION TECHNOLOGY- ime odlučiti ponovo**

Which will be held on November 4th and 5th, 2020 in Zagreb and the hosting country is Croatia (Congress Hall-Zagreb Fair), which will bring together experts in robotics and medical rehabilitation from Central and Southeastern Europe.

This event will mark a step forward in the field of medicine and rehabilitation. With this event, we want to sensitize the European market and bring visitors up-to-date with the latest technology and point to the positive results of patient's rehabilitation with robotics. We're talking about a market of 22 million people in S/ SE European region.

Eminent robotics and medical rehabilitation experts who have years of experience in manufacturing robotics and rehabilitation of the most difficult diagnoses will be speaking at the Congress.

Many neurologically injured patients are able to preserve and restore their health through robotics

... and bring back their independent life.

This two-day event is organized to introduce the latest developments in assistive robotics rehabilitation. Also to explain its application in medical rehabilitation to participants and the general public. It was conceived as an ideal combination of theory in the form of expert panel lectures and practical presentations of working with state-of-the-art robotics devices. On this occasion we will present the latest trends, innovative rehabilitation technology (robotics, sensor technology, virtual reality and gamification) and robotic-computer-assisted devices from the world of medical rehabilitation.

**Robotic is the future. Be a part of the future, too.**

We are pleased to invite you to participate in this unique event, refine your knowledge with the latest knowledge of robotics and rehabilitation and gain your competitor's advantage, always being one step ahead of everyone!

## POZIV ZA SUDJELOVANJEM NA 1. regionalnog kongresa medicinske robotske rehabilitacije

„ROBOTSKA REHABILITACIJSKA TEHNOLOGIJA“ RRT.med

S radošću Vam najavljujemo prvi regionalni kongres

### ROBOTSKE REHABILITACIJSKE TEHNOLOGIJE

koji će se održati 4. i 5. studenog 2020. godine u Zagrebu, zemlja domaćin Hrvatska (Kongresna dvorana-Zagrebački Velesajam), a okupit će stručnjake iz robotike i medicinske rehabilitacije s područja Srednje i Jugoistočne Europe.

Ovaj događaj označit će iskorak u području medicine i rehabilitacije. Time želimo senzibilizirati tržište Europe i posjetiocima približiti najmoderniju tehnologiju te ukazati na pozitivne rezultate rehabilitacije pacijenata pomoću robotike. Obraćamo se tržištu od 22 mil. ljudi koje pokriva područje Srednje i Jugoistočne Europe.

Na Kongresu će govoriti eminentni stručnjaci robotike i medicinske rehabilitacije koji imaju dugogodišnja iskustva u proizvodnji robotike i rehabilitacije najtežih dijagnozi, ostvarujući odlične rezultate.

Mnogi broj neurološki stradali pacijenata je upravo radi robotike uspio sačuvati i vratiti svoje zdravlje

... i samostalan život.

Ovaj dvodnevni događaj organiziran je u želji da sudionike i širu zainteresiranu javnost upozna s najnovijim dostignućima u području robotike i njene primjene u medicinskoj rehabilitaciji. Zamišljen je kao idealan spoj teorije u vidu stručnih predavanja na panelima i praktičnog prikaza rada s najsuvremenijim robotima. Tom prigodom će se predstaviti najnoviji trendovi, inovativna rehabilitacijska tehnologija (robotika, senzorska tehnologija, virtualna stvarnost i gamifikacija) i robotsko-računalno potpomognuti uređaji iz svijeta medicinske rehabilitacije.

Robotika je budućnost. Budite i Vi dio budućnosti.

Sa zadovoljstvom Vas pozivamo da sudjelujete na ovom jedinstvenom događaju, oplemenite svoje znanje najnovijim saznanjima robotike i rehabilitacije i ostvarite svoju konkurentu prednost čime ćete uvijek biti korak ispred svih !

## HR ŠTO OČEKIVATI?

Očekujte najpoznatije predavače, mnogo znanja, puno smijeha i novih uspomena. Zauzmite svoje mjesto među liderima rehabilitacijske tehnologije. Postanite vidljivi u svijetu biznisa i svoju ambiciju preusmjerite na nešto

# veliko.

U doktorskom paketu dobivate:

- BROŠURU
- ODGOVORE NA SVE DETALJE O BUDUĆIM TEHNO KONCEPTIMA
- KATALOG
- NEWSLETTER
- ISPROBAVANJE NAJMODERNIJIH SVJETSKO POZNATIH UREĐAJA
- UMREŽAVANJE U BIZNIS SVIJETU
- RAZGOVOR S NAJPOZNATIJIM STRUČNJACIMA U ROBOTSKOJ TEHNOLOGIJI I REHABILITACIJI
- MATERIJALE ZA ZAPISIVANJE BITNIH INFORMACIJA I KONTAKATA
- UVID U NAJMODERNIJE KONCEPTE LIJEČENJA
- POTVRDA O SUDJELOVANJU NA KONGRESU
- SNACK AND DRINKS
- SUDJELOVANJE NA PANEL DISKUSIJI

## WHAT TO EXPECT? EN

Expect the most famous lecturers, lots of knowledge, lots of laughs and new memories. Take your place among the leaders of rehabilitation technology. Become visible in the business world and refocus your ambition on something

# big.

In the doctor package You will get:

- A BROCHURE
- ANSWERS TO ALL THE DETAILS ABOUT FUTURE TECHNO CONCEPTS
- A CATALOGUE
- A NEWSLETTER
- THE POSSIBILITY TO TRY THE MOST MODERN WORLDWIDE DEVICES
- A CHANCE TO NETWORK WITHIN THE BUSINESS WORLD
- AN INTERVIEW WITH THE MOST IMPORTANT EXPERTS IN ROBOTIC TECHNOLOGY AND REHABILITATION
- MATERIALS FOR RECORDING BIG INFORMATION AND CONTACTS
- AN OVERVIEW OF THE MOST MODERN TREATMENT CONCEPTS
- A CERTIFICATE OF PARTICIPATION AT THE CONGRESS
- SNACKS AND DRINKS
- PARTICIPATION IN THE PANEL DISCUSSION

# tyromotion

EN

Moždani udar, nesreća, ozljeda leđne moždine. Isti razlozi koji su prvi pokrenuli većinu ljudi u suradnji s Tyromotion-om doveli su do Tyromotion-a. Nakon osobnih poteza sudbine i sretnog susreta s medicinskim ravnateljem klinike u Grazu (Austrija) 2007. godine, David Ram i Alexander Kollreider osnovali su Tyromotion. Danas je vodeći proizvođač tehnoloških terapijskih uređaja temeljenih na tehnologiji.

Stroke, accident, spinal cord injury are the exact reasons that first moved most people to partner up with Tyromotion and have brought Tyromotion into being. After having personal strokes of fate and a fortunate encounter with the medical director of a clinic in Graz (Austria) in 2007, David Ram and Alexander Kollreider founded Tyromotion. Today they are the leading manufacturers of technology-based therapeutic devices.

Hocoma je globalni lider za razvoj, proizvodnju i marketing robotskih i senzorskih uređaja za funkcionalnu terapiju pokreta. Slijedite nas radi inspiracije i uvida u robotsku rehabilitaciju. Naša rješenja za terapiju podržavaju liječenje neuroloških pacijenata s poremećajima pokreta koji su uzrokovani moždanim udarom, ozljedom leđne moždine, traumatskim ozljedama mozga, multiplom sklerozom, cerebralnom paralizom ili drugim ortopedskim i neurološkim bolestima i ozljedama.

Hocoma is the global leader for the development, manufacturing and marketing of robotic and sensor-based devices for functional movement therapy. Follow us for inspiration and insight into robotic rehabilitation. Our therapy solutions support the treatment of neurological patients with movement disorders caused by stroke, spinal cord injury, traumatic brain injury, multiple sclerosis, cerebral palsy or other neurological diseases and injuries as well as low back pain patients.

Bioness je vodeći pružatelj inovativnih tehnologija koje pomažu ljudima da vrate mobilnost i neovisnost. Rješenja Bioness-a uključuju funkcionalne elektro-stimulacijske sustave (FES), robotske sustave i programe temeljene na softveru koji pružaju funkcionalne i terapijske koristi osobama pogođenim poremećajima središnjeg živčanog sustava i ortopedskim ozljedama.

Bioness is the leading provider of innovative technologies helping people regain mobility and independence. Bioness solutions include functional electrical stimulation (FES) systems, robotic systems and software based therapy programs providing functional and therapeutic benefits for individuals affected by central nervous system disorders and orthopedic injuries.

Gloreha je rezultat sinergističkog, motiviranog i originalnog pristupa. Skupina od 11 malih i srednjih poduzeća iz industrijskog područja Lumezzanea, Brescia (Italija) odlučila je započeti jedinstveno i inovativno iskustvo, vodeći do moćne mreže tvrtki, istraživačkih objekata, talijanskih i europskih rehabilitacijskih centara koji su željeli pomaknuti svoje tradicionalne granice, izazivajući sebe ulaganjem u istraživanje i razvoj, usredotočujući se na inovativna tržišta. Znanje stečeno nakon desetljeća iskustva u području mehanike i elektronike poboljšalo je ovaj izazov.

Gloreha is the result of a synergistic, motivated and original approach. A group of 11 SMEs from the industrial area of Lumezzanea, Brescia (Italy) decided to start a unique and innovative experience, leading to a powerful network of companies, research facilities, Italian and European rehab centers. Idrogenet represents the foresight of those 11 companies which wanted to go beyond their traditional borders, challenging themselves by investing in R&D and focusing on innovative markets. Knowledge that was reached after decades of experience in the field of mechanics and electronics enhanced this challenge.

Više od deset godina osnažujemo ljude egzoskeletima dizajniranim da poboljšaju prirodne sposobnosti i, u konačnici, poboljšaju kvalitetu života. Mi smo jedina kompanija koja se bavi egzoskeletima koja nudi najmodernije tehnologije koje pomažu pacijentima s paralizom da ustanu i hodaju, poboljšavaju radničke sposobnosti na globalnoj razini bitne za istraživanje unaprjeđenja projekata istraživanja i razvoja koji su namijenjeni dobrobiti obrambenih sposobnosti SAD-a.

We have empowered people for over ten years with exoskeletons designed to enhance natural abilities and, ultimately, improve the quality of life. We are the only exoskeleton company to offer technologies that help those with paralysis to stand up and walk, enhance worker capabilities globally, and provide research for the advancement of R&D projects intended to benefit U.S. defense capabilities.

**THERA**  
TRAINER

EN

Tvrtku je osnovao Peter Kopf, koji je i dalje šef tvrtke. Zajedno s Otto Höbel - koji je odgovoran za sve tehničke odjele - oni uspješno upravljaju tvrtkom. S oko 120 zaposlenika, tvrtka se zalaže za inovativnost, profesionalnost i pouzdanost. Više od 70 distributera u inozemstvu dokaz je naše međunarodne ekspanzije: naši THERA treneri dostupni su ne samo u Njemačkoj i većini Europe već i u Sjevernoj Americi, Južnoj Americi, Aziji, Australiji i na Bliskom Istoku.

The company was founded by Peter Kopf, who is still the head of the company. Together with Otto Höbel - who is responsible for all technical departments - they successfully manage the company. With around 120 employees, the company stands for innovation, professionalism and reliability. More than 70 distributors abroad are proof of our international expansion: our THERA-Trainers are available not just in Germany and most of Europe but also in North America, South America, Asia, Australia and the Middle East.
