

CALL FOR SPONSORSHIP 1st Regional

Robotic Rehabilitation Technology Congress RRT. med

We are pleased to announce the first Regional Congress

ROBOT REHABILITATION TECHNOLOGY- kako se zove kongres, robot ili robotics?

which will be held on November 4th and 5th, 2020 in Zagreb and the hosting country is Croatia (Congress Hall-Zagreb Fair), which will bring together experts in robotics and medical rehabilitation from Central and Southeastern Europe.

This event will mark a step forward in the field of medicine and rehabilitation. With this event, we want to sensitize the European market and bring visitors up-to-date with the latest technology and also point to the positive results of patient's rehabilitation with robotics. We're talking about a market of 22 million people in S/ SE European region.

Eminent robotics and medical rehabilitation experts who have years of experience in manufacturing robotics and rehabilitation of the most difficult diagnoses will be speaking at the Congress.

Many neurologically injured patients are able to preserve and restore their health due to robotics

... and bring back their independent life.

This two-day event is organized to introduce the latest developments in assistive robotics rehabilitation. Also to explain its application in medical rehabilitation to participants and the general public. It was conceived as an ideal combination of theory in the form of expert panel lectures and practical presentations of working with state-of-the-art robotics devices. On this occasion we will present the latest trends, innovative rehabilitation technology (robotics, sensor technology, virtual reality and gamification) and robotic-computer-assisted devices from the world of medical rehabilitation.

Robotic is the future. Be a part of the future, too.

Support this unique event, present your devices and rehabilitation concepts, gain visibility in the world of robotics and rehabilitation as well as in the media and choose one of the sponsorship packages that best suits you:

POZIV ZA SPONZORSTVOM 1. regionalnog kongresa medicinske robotske rehabilitacije

„ROBOTSKA REHABILITACIJSKA TEHNOLOGIJA“ RRT.med

S radošću Vam najavljujemo prvi regionalni kongres

ROBOTSKE REHABILITACIJSKE TEHNOLOGIJE

koji će se održati 4. i 5. studenog 2020. godine u Zagrebu, zemlja domaćin Hrvatska (Kongresna dvorana-Zagrebački Velesajam), a okupit će stručnjake iz robotike i medicinske rehabilitacije s područja Srednje i Jugoistočne Europe.

Ovaj događaj označit će iskorak u području medicine i rehabilitacije. Time želimo senzibilizirati tržište Europe i posjetiocima približiti najmoderniju tehnologiju te ukazati na pozitivne rezultate rehabilitacije pacijenata pomoću robotike.

Obraćamo se tržištu od 22 mil. ljudi koje pokriva područje Srednje i Jugoistočne Europe.

Na Kongresu će govoriti eminentni stručnjaci robotike i medicinske rehabilitacije koji imaju dugogodišnja iskustva u proizvodnji robotike i rehabilitacije najtežih dijagnozi, ostvarujući odlične rezultate.

Mnogi broj neurološki stradalih pacijenata je upravo radi robotike uspio sačuvati i vratiti svoje zdravlje

... i samostalan život.

Ovaj dvodnevni događaj organiziran je u želji da sudionike i širu zainteresiranu javnost upozna s najnovijim dostignućima u području robotike i njene primjene u medicinskoj rehabilitaciji. Zamišljen je kao idealan spoj teorije u vidu stručnih predavanja na panelima i praktičnog prikaza rada s najsuvremenijim robotima.

Tom prigodom će se predstaviti najnoviji trendovi, inovativna rehabilitacijska tehnologija (robotika, senzorska tehnologija, virtualna stvarnost i gamifikacija) i robotsko-računalno potpomognuti uređaji iz svijeta medicinske rehabilitacije.

Robotika je budućnost. Budite i Vi dio budućnosti.

Podržite ovaj jedinstven događaj, prezentirajte svoje uređaje i rehabilitacijske koncepte, ostvarite vidljivost u svijetu robotike i rehabilitacije kao i u medijima te izaberite jedan od sponzorskih paketa koji Vam najviše odgovara:

PLATINUM sponsor

- predavanje u trajanju od 2x45 min (2 dana)
- izložbeni prostor veličine prema dogovoru
- mogućnost odabira pozicije izložbenog prostora (najbolja pozicija)
- demonstracija i prezentacija na aktivnoj radionici
- 6 kotizacija
- umetanje promo materijala u torbe
- implementacija loga u web stranicu RRT kongresa
- implementacija loga u newsletter RRT kongresa
- implementacija loga u katalog RRT kongresa
- 4 stranice PR teksta u časopisu/ katalogu
- prisutnost loga u svim dopisima RRT kongresa
- prisutnost loga na akreditacijama
- prisutnost loga na glavnom roll up wall-u
- promocija na videowallu
- roll up pano pozicioniran uz registracijski pult
- 2 roll up-a u predavaonici
- objava banner-a na web stranici RRT kongresa
- organizacija caffe break-a
- videospot za vrijeme pauze
- soba za sastanke

- lecture duration of 2x45 min (2 days)
- exhibition spot in accordance to arrangement
- possibility to choose the best exhibition spot position
- demonstration and presentation at an active workshop
- 6 registration fees
- packaging promo materials in bags
- implementation of the logo into the RRT Congress website
- implementation of the logo in the RRT Congress newsletter
- implementation of the logo in the RRT Congress catalogue
- 4 pages of PR text in a magazine / catalogue
- the presence of the logo in all media correspondences with the RRT Congress
- presence of logo on accreditations
- presence of the logo on the main roll up wall
- promotion on videowall
- roll up panel positioned next to the registration desk
- 2 roll ups in the conference room
- publishing a banner on the RRT Congress website
- organization of a coffee break
- a video during the break
- personal meeting room
